Re: Coyote Valley Specific Plan

Dear Mr. Hart,

As property owners within the Coyote Valley, please consider our comments regarding the Coyote Valley Specific Plan.

After wading through the Coyote Valley Specific Plan Draft Environmental Impact Report it is clear to us that our property, located in the Green Belt, was of no consideration other than that of a "buffer". If the plan is adopted as is, questions brought up by our family members concerning the impact on properties in the Green Belt such as, roads, water, sewer and other City services, and was not considered, then the Environmental Impact Report is incomplete. Section 3.0 Consistency With Adopted Plans Report shows the willingness of the CVSP to disregard sections of the San Jose 2020 general Plan to suit their needs such as canceling Williamson Act Contracts and ignoring Preservation of Agriculture Lands and Prime Soils within the "Coyote Valley Planned Community". As tax paying citizens since the mid 1960's, with no City services and no planned City services, it is very disheartening to come to the realization that we are the forgotten citizens of San Jose. Where do we go to be heard? We are people without representation.

Sincerely,

Edward A. Owen
